

SKIRTS FOR GIRLS AND WOMEN DIRECTIONS

Simple elastic waistband skirts will be given to women around the world (especially a home for special needs girls and women in Haiti and an orphanage in Tanzania) to wrap them in God's love and give them a sense of dignity. Pray for the person who will receive the skirt as you sew it.

Use your own pattern or pick up a skirt kit in the connector.

If using a kit directions follow. Kits include fabric needed and elastic for the waistband as well as skirt size.

Sew the side seam with a 3/8 inch seam and then zig zag or serge the seam.

Make a casing at top wide enough for elastic to fit. Insert the elastic. The size tag can be sewn in the inside of the casing as the seam is closed.

Sew a hem 1 inch or wider.

This is an ongoing project. Completed skirts can be put in the red bin in the Holy Angels connector or dropped off at Maria Stein Shrine.

If you have a question call Karen 937-492- 4642.
